

Thursday 25th February 2021.

WALT: *measure objects by length.*

Dear Class,

Fe, fi, fo, fum!

There is a lot of measuring to be done.

Can you find things that are longer than my footprints?

What things are shorter?

Sincerely

The Giant

P.S can you find anything that is the same length as my footprints?

Please send a photo of the objects you have found that are longer or shorter than the giants footprints.
